Subject: Habeeb for Marvellous Island 2027

Email copy:

Hi Laurent,

I'm writing on behalf of Habeeb, a Dallas-based House and Tech House artist, for Marvellous Island's 2027 edition.

La Kasbah's House and Tech House direction is a natural match for a set built around heavy low end, UK Garage and Bassline accents, and an experimental edge. Seeing Dennis Cruz and Nic Fanciulli in the 2026 program also makes the fit clear: Habeeb can bring a dynamic performance that stays grounded in the groove while adding a sharper garage pulse.

He performed at Breakaway Dallas in 2026 and is booked for the upcoming Breakaway Houston. He also has two records released on Animarum as of September 18.

Current music and materials are in the [Habeeb EPK](#).

Would you consider Habeeb for Marvellous Island 2027, particularly La Kasbah or another House-focused stage? I'm happy to share availability and fee guidance.

Best,
Joanna Biehler

Subject: Habeeb for Horst Festival 2027

Email copy:

Hi Simon,

I'm reaching out on behalf of Habeeb, a Dallas-based House and Tech House artist, for Horst Festival 2027.

Horst's pairing of experimental electronic programming with stages shaped around architecture and space suits how Habeeb approaches a set: as a dynamic performance, not a fixed run of tracks. Todd Edwards and Daphni in the 2026 program are useful reference points for the groove, swing, and left-turn energy he brings, with UK Garage and Bassline threaded through his House foundation.

Habeeb performed at Breakaway Dallas in 2026, and he's booked for the upcoming Breakaway Houston. He also has two records released on Animarum and an upcoming Animarum label showcase in Berlin in spring 2027, which makes a European festival date timely.

Current music and materials are in the [Habeeb EPK](#).

Would you consider Habeeb for the 2027 music program? I'd be glad to send availability, fee guidance, and any additional materials.

Best,
Joanna Biehler
