BIOGRAPHY

Habeeb is an independent electronic artist and DJ from Dallas, Texas whose music lives somewhere between underground club culture and emotional storytelling. While he originally gained traction through Tech House remixes and edits that spread across DJ communities online, his sound has gradually evolved into something less focused on fitting neatly into one genre and more focused on creating a feeling.

A lot of Habeeb's music is built around contrast. Heavy basslines paired with emotional vocals. Fast club rhythms mixed with nostalgic melodies. High energy records that still feel personal underneath the surface. Whether he is making Tech House, UK Speed Garage, Bassline, or more melodic club records, the goal stays the same: create music that pulls people out of their head for a few minutes and makes them feel something real.

Before releasing original music, Habeeb built an audience online through edits and remixes that earned thousands of downloads and support from DJs who connected with the balance of familiarity and club energy in his productions. Over time, that evolved into original releases that expanded beyond the style he initially became known for.

As a DJ, Habeeb has performed throughout Dallas clubs and events while continuing to grow his audience as an independent artist, including a performance at Breakaway Dallas 2026. His sets are known for blending genres fluidly while maintaining a consistent emotional and energetic atmosphere from start to finish.

At the center of everything Habeeb creates is a simple idea: dance music should feel human. Not just loud or trendy or functional for a playlist, but something immersive that people remember after the night ends.
